Winner, Delite Table Light

ABOUT ME

I'm an optimist with diversified work experience. My experience is a journey of chaotic objects to a simplified product. I admire projects, with certain ambiguity, which need a match of visual proportions with physicality to keep the taste of technology intact. I like to listen more, thought more and do more so to achieve less more. I would love to join team for learning, for business or for fun.

EDUCATION

2014 - 2016
